**How did you hear about our
office?**

**How were you directed to our
Web site?**

* Not redeemable for cash

Note: In most cases, teeth whitening is safe for healthy patients whose teeth are free of dental disease. As part of our Smile Analysis, we will conduct a complete dental examination and review your medical history. We may advise you to postpone your whitening procedure if any conditions that might compromise the results, or, more importantly, your health, are present. Offer available for a limited time.
